Accuracy

Digital PSI Gauge Out-Of-The-Box,  
after calibration, on-board scale!

The all-new QuickWeigh by Air-Weigh is the go-to solution for equipment utilization. Don't guess your weights, know them instantly anywhere and at any time. When fully calibrated, QuickWeigh brings all the accuracy and dependability you know from other Air-Weigh scales at an all-new economical price offering.

Stop losing hours of service and out of route miles to find in-ground scales, stop relying on less accurate options. Choose the solution all drivers count on to quickly check their weights - QuickWeigh!

View weights and scale data via any smart device. The QuickWeigh app is free and available for download for both iOS and Android devices.
